2. FURTHER ACTION

If a demand for international preliminary examination is made, this opinion will usually be considered to be a written opinion of the International Preliminary Examining Authority ("IPEA"). However, this does not apply where the applicant chooses an Authority other than this one to be the IPEA and the chosen IPEA has notified the International Bureau under Rule 66.1bis(b) that written opinions of this International Searching Authority will not be so considered.

If this opinion is, as provided above, considered to be a written opinion of the IPEA, the applicant is invited to submit to the IPEA a written reply together, where appropriate, with amendments, before the expiration of three months from the date of mailing of Form PCT/ISA/220 or before the expiration of 22 months from the priority date, whichever expires later.

For further options, see Form PCT/ISA/220.

INTERNATIONAL SEARCHING AUTHORITY

International application No.
PCT/IB2004/002503

Box No. II Priority

1. ☒ The following document has not been furnished:

- ☒ copy of the earlier application whose priority has been claimed (Rule 43bis.1 and 66.7(a)).
- ☐ translation of the earlier application whose priority has been claimed (Rule 43bis.1 and 66.7(b)).

Consequently it has not been possible to consider the validity of the priority claim. This opinion has nevertheless been established on the assumption that the relevant date is the claimed priority date.

2. ☐ This opinion has been established as if no priority had been claimed due to the fact that the priority claim has been found invalid (Rules 43bis.1 and 64.1). Thus for the purposes of this opinion, the international filing date indicated above is considered to be the relevant date.

3. Additional observations, if necessary:

Re Item V.

- 1 The following documents are referred to in this communication:
D1 : US 4 437 294 A (ROMAGNOLI ANDREA) 20 March 1984
D2 : US 4 870 808 A (ROMAGNOLI ANDREA) 3 October 1989
D3 : US 6 135 120 A (LOEFMAN LARS OLOF ET AL) 24 October 2000

2 INDEPENDENT CLAIM 1

- 2.1 The present application does not meet the criteria of Article 33(1) PCT, because the subject-matter of claim 1 is not new in the sense of Article 33(2) PCT.

Document D1 discloses (the references in parenthesis applying to this document): a device for dosing and forming pods (16) containing a product for infusion; the pods (16) being of the type comprising a piece of filter material containing a dose of the product for infusion, the device comprising at least the following: a station (1) for feeding the product into at least one forming impression (5) defining a single dose of the product and made in means (7) for forming a respective compressed disk (16) of the infusion product and releasing the compressed disk (16) from the impression (5) in the filter material to form the pod (16).

Thus D1 shows all the features of claim 1

- 2.2 A similar novelty objection can be made against claim 1 based on document D2 and D3 (see passages cited in search report).

3 DEPENDENT CLAIMS 2-7, 10, 11

Dependent claims 2-7, 10, 11 do not contain any features which, in combination with the features of any claim to which they refer, meet the requirements of the PCT in respect of novelty and/or inventive step (Article 33(2) and (3) PCT).
